INDEPENDENT AUDITORS REPORT ON THE COMPANY'S SYSTEM OF INTERNAL  
CONTROL

To the Board of Directors of International Fund Marketing Limited

In planning and performing our audit of the financial statements of International Fund Marketing Limited for the year ended 30th June, 2008, we considered its internal control structure, including procedures for safeguarding customer and company assets, in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control structure.

Because of the size and simplicity of the company's operations we did not find it necessary to make a study of the practices and procedures or test compliance with such practices. Because the company does not carry securities accounts for customers or perform custodial functions relating to customer securities, we did not review the practices and procedures followed by the company in any of the following:

- 1 Making the quarterly securities examinations, counts verifications and comparisons.
- 2 Recordation of differences.
- 3 Complying with the requirements for prompt payments for securities.

The management of the Company is responsible for establishing and maintaining an internal control structure and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgements by management are required to assess the expected benefits and related costs of internal control structure policies and procedures and of the practices and procedures referred to in the preceding paragraph and to assess objectives. Two of the objectives of an internal control structure and the practices and procedures are to provide management with reasonable, but not absolute, assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorised use or disposition and that transactions are executed in accordance with management's authorisation and recorded properly to permit preparation of financial statements in conformity with generally accepted accounting principles.

Because of the inherent limitations in any internal control structure or the practices and procedures referred to above, errors or irregularities may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

INDEPENDENT AUDITORS REPORT ON THE COMPANY'S SYSTEM OF INTERNAL  
CONTROL

To the Board of Directors of International Fund Marketing Limited (continued)

Our consideration of the internal control structure would not necessarily disclose all matters in the internal control structure that might be material weakness under standards established by the American Institute of Certified Public Accountants. A material weakness is a condition in which the design or operation of the specific internal control structure elements does not reduce to a relatively low level the risk that errors or irregularities in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. However, we noted no matters involving the internal control structure, including procedures for safeguarding customer and company assets, that we consider to be material weaknesses as defined above.

Based on our limited review and the simplicity of operations we believe that the Company's practices and procedures were adequate at 30th June, 2008.

This report is intended solely for the use of the board of directors, management, the SEC, Commodity Futures Trading Commission, and other regulatory agencies that rely on the regulations and should not be used by anyone other than these specified parties.
